Radiant Sage Receives Prestigious Frost & Sullivan Customer Value Enhancement Award for its Clinical Trial Image Management Solution

Belmont, Mass. – August 13, 2012 – [Radiant Sage LLC](#), a provider of on-demand clinical trial image management solutions, today announced that it has received the [Frost & Sullivan](#) 2012 Customer Value Enhancement Award for its clinical trial image management solutions. Venkatesan Thangaraj, CEO of Radiant Sage, received the award at Frost & Sullivan's Best Practices Awards dinner held July 18 in Boston, Mass.

The award recognizes companies that have demonstrated excellence in implementing strategies and supporting products and services that proactively create value for their customers, with a focus on improving the return on investment that customers make in their products or services.

"We are honored to receive this prestigious award from Frost & Sullivan," said Thangaraj. "We have partnered with top global pharmaceutical companies to develop our clinical trial image management solutions to specifically meet their needs and the industry in general. This award validates our efforts to focus on the customer and the value we bring to their organization by simplifying the image management process for clinical trial sponsors and enabling them to quickly and cost-effectively develop drugs."

"Radiant Sage's solutions were brought to the market specifically for clinical imaging trials," says Jennifer Brice, global program manager of Life Sciences at Frost & Sullivan. "Its products and services enable its customers to take control over imaging trials in a seamless fashion. It is for these reasons that we presented Radiant Sage with this award."

About Radiant Sage

[Radiant Sage LLC](#) provides on-demand clinical trial image management solutions for organizations involved in drug discovery and research. Specifically designed for clinical trials,
